IN-HOUSE PRODUCTION

Pre-show Mock-up build for client inspection where all the construction can be viewed in one place

We have all our production and fabrication, electrical pre-wiring, graphic production and design all in-house, we are not reliant on subcontract.

We do not subcontract any of our core disciplines so our work is viewed in the same place so amendments are made on the spot

The background image shows a minimalist interior. On the left, a portion of a brown leather sofa is visible. To its right is a light-colored wooden side table with a single drawer and thin legs. On the table sits a small, light-colored bust of a person's head and a potted plant with long, pointed green leaves. The wall is a neutral, light gray, and the floor is a light, polished surface. Large, bold, dark gray text is overlaid on the right side of the image, arranged vertically. The word 'HOME' is at the top, followed by 'OFFICE', 'SHOWROOM', 'RESTAURANT', and 'VILLA' at the bottom. The text is partially obscured by the sofa and table.
